Headless Printing

Cavallo Support - 2024-11-22 - Miscellaneous

Definition

Headless printing describes printing without a dialog box.

Settings

Automatically Print – Flags whether or not printing requests should show a popup or simply use default printer setting to print documents.

Default Printer – Flags where automatic printing happens.

Print Finished Shipments – Flags whether or not printing requests should happen automatically after "Finish Shipment" is clicked on the Shipment Editor.

Print Settings	
Automatically Print	**False**
Default Printer	**Zebra ZP 450 CTP**
Print Finished Shipments	**True**

Printing

The action menu's Print button will respect the aforementioned settings. Likewise, the Finish Shipment button on the Shipment Editor will attempt to print if flagged using the above settings.
