

Allow new Manufacturing Orders to be created with MO Status of Released Future Consideration

- CH Curtis Huber
- **Forum name:** #SalesPad Products

Currently MOs can only be created from SalesPad with a status of "Quote/Estimate" or "Open". Neither of these statuses will allocate components, so the only option is to re-open the MO in GP and change the status to "Released" there.

Note, along with this functionality we should also have the ability to edit MO Qty, Due Date, Description, Priority, etc. on "Released" MOs. Also the ability to delete a "Released" MO from SalesPad.
