

Add Transaction Type "Allocate" and "ReverseAllocate" to the IM Mobile Manufacturing Transaction Entry Future Consideration

- CH Curtis Huber

We would like to use the Mobile Manufacturing Transaction Entry module in Inventory Manager to create inventory allocations for MO components. However, it appears the Transaction Type of “Allocate” is missing, we only have “Issue”, “ReverseIssue”, “Scrap”, and “ReverseScrap”. Could you add the “Allocate” and "ReverseAllocate" transaction types in a future version?
