Activity Locks (ShipCenter)

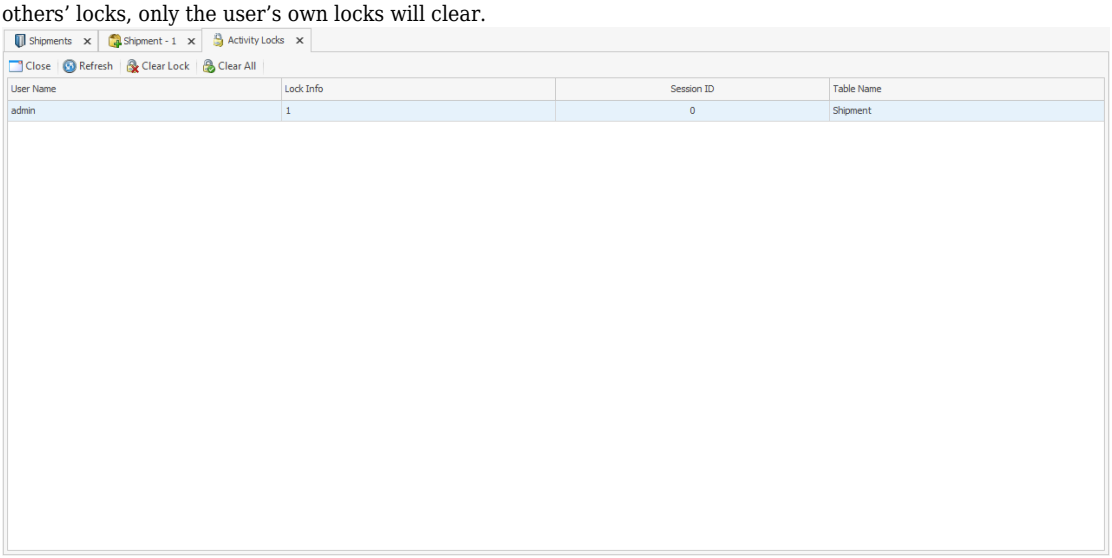

Cavallo Support - 2024-12-03 - Miscellaneous

Overview

The Activity Locks module allows a user with access to view or clear activity locks on a shipment.

Usage

Activity locks are caused by multiple users accessing the same shipment. Any active shipment locks will appear in the primary window of the Activity Locks module. To clear a lock, highlight the item you wish to clear and click **Clear Lock**. To clear the locks on all shipments, click **Clear All**. If permissions do not allow a user to clear others' locks, only the user's own locks will clear.

Security

Activity Locks - Allows access to the module from the main menu dropdown. Used to clear active shipment locks.
