# CardControl System and Software Requirements

Megan De Freitas - 2025-06-11 - Miscellaneous

**Important Notice**

**After October 29, 2019, SalesPad will no longer be supporting CardControl.**

Additionally, the application will cease to be a PA-DSS validated solution as of this date, and therefore CardControl customers would no longer be PCI compliant.

Instead, SalesPad Desktop now offers built-in credit card processing via [Nodus PayFabric](). If you have questions or want more information on our credit card processing services, please contact your sales rep.
