## Carrier EOD

Megan De Freitas - 2024-11-22 - Miscellaneous

### Overview

The Carrier EOD (End of Day) module displays a report of the shipments generated for a carrier for a given shipment date. This report can be modified in ShipCenter's Report Designer. A fully functional default report is included as a template.

### Use

To generate a Carrier EOD report, click on the **Carrier EOD** module from the Application tab. In the Carrier EOD window, select the Carrier ID, Shipment Date, and Report ID. 

Click **OK** to display the report. When populated with data, the default Carrier EOD report will resemble the following: 

### Security

There are currently no securities for Carrier EOD
