

Choose Purchase Plan: Purchase Quantity Rounding

Megan De Freitas - 2024-11-22 - Purchasing

Overview

You can modify the "Choose Purchase Plan" screen in the Purchasing Advisor Module to check an Item's Vendor Minimum Purchase Quantity when generating a purchase order, rounding the quantities up if the minimum quantity is not met.

Security

In the SalesPad Security Editor (Modules>Security Editor), search for "Choose Purchase Plan" and click the checkbox to enable the functionality. In the Miscellaneous sub-settings, set *Show Rounding Options* to True.

The screenshot shows the 'Security' window in the SalesPad Security Editor. At the top, there are buttons for 'Select All', 'Select None', and 'Copy From...'. Below this is a table with columns 'Acc...' and 'Name'. A row is selected with a checkbox checked and the name 'Choose Purchase Plan*'. Below the table, there is a filter bar with a red 'X' icon, a checkbox checked, and the text 'Contains([Name], 'Choose Purchase Plan')'. To the right of the filter bar is an 'Edit Filter' button. Below the filter bar is a section titled 'Misc' with a table of settings. The table has two rows: 'Lock Line Item Order' with a value of 'False', and 'Show Rounding Options' with a value of 'True'. Below the 'Misc' section is a text box titled 'Show Rounding Options' with the following text: 'Allows a user to select a rounding option for the purchase quantity. If set to 'Round to Closest Multiple', the purchase quantity will be set to the nearest minimum required quantity. If set to 'Increase to Next Multiple', the purchase quantity will increase to the next minimum required quantity. Defaults to 'False'.'

Acc...	Name
<input checked="" type="checkbox"/>	Choose Purchase Plan*

☒ Contains([Name], 'Choose Purchase Plan') Edit Filter

Misc	
Lock Line Item Order	False
Show Rounding Options	True

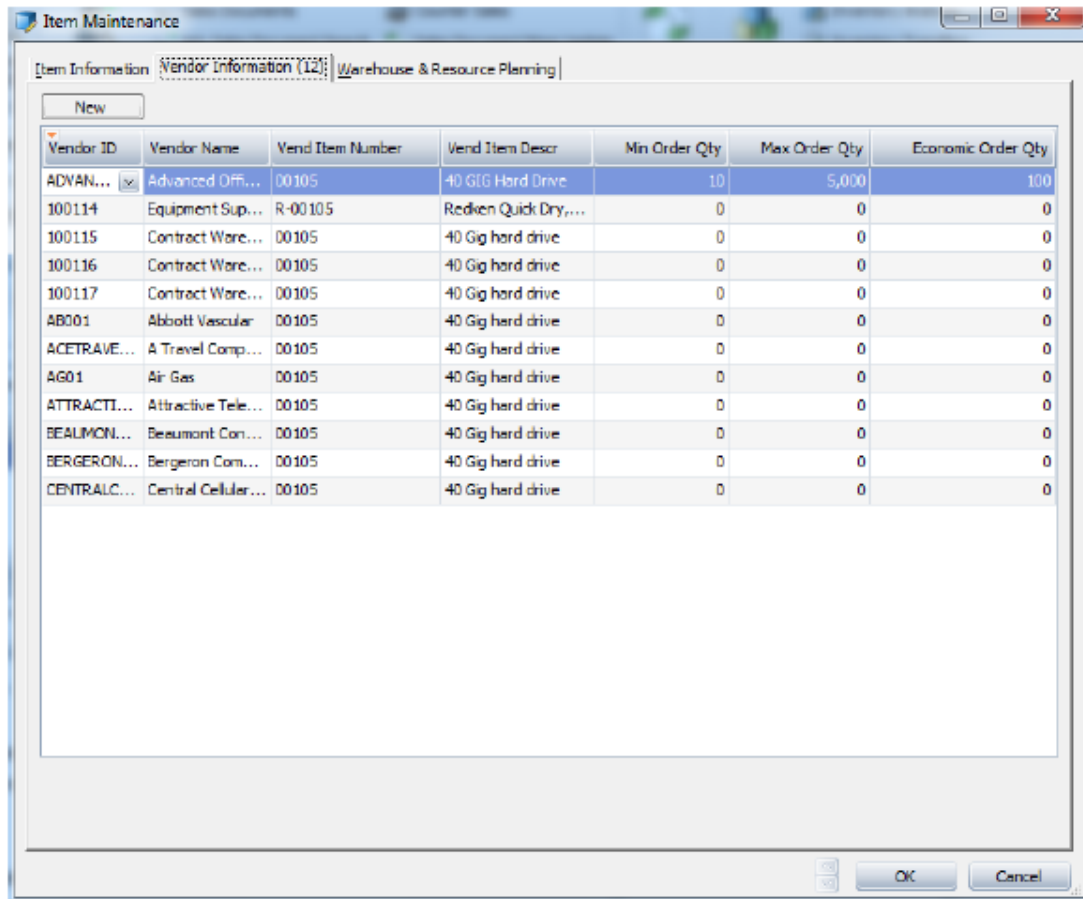

Show Rounding Options
Allows a user to select a rounding option for the purchase quantity. If set to 'Round to Closest Multiple', the purchase quantity will be set to the nearest minimum required quantity. If set to 'Increase to Next Multiple', the purchase quantity will increase to the next minimum required quantity. Defaults to 'False'.

Setting the Multiple Value

Before you modify the "Choose Purchase Plan" screen, you need to set the multiple value to be used for the rounding.

This can be done in the Item Maintenance window, which can be accessed from a sales document or from Inventory Lookup in SalesPad. For a detailed overview of Item Maintenance, click [here](#).

Once you have the "Item Maintenance" window open, click on the Vendor Information tab.

The screenshot shows the 'Item Maintenance' window with the 'Vendor Information (12)' tab selected. The window contains a table with the following data:

Vendor ID	Vendor Name	Vend Item Number	Vend Item Descr	Min Order Qty	Max Order Qty	Economic Order Qty
ADVAN...	Advanced Off...	00105	40 GIG Hard Drive	10	5,000	100
100114	Equipment Sup...	R-00105	Redken Quick Dry...	0	0	0
100115	Contract Ware...	00105	40 Gig hard drive	0	0	0
100116	Contract Ware...	00105	40 Gig hard drive	0	0	0
100117	Contract Ware...	00105	40 Gig hard drive	0	0	0
AB001	Abbott Vascular	00105	40 Gig hard drive	0	0	0
ACETRAVE...	A Travel Comp...	00105	40 Gig hard drive	0	0	0
AG01	Air Gas	00105	40 Gig hard drive	0	0	0
ATTRACTI...	Attractive Tele...	00105	40 Gig hard drive	0	0	0
BEALMON...	Beaumont Con...	00105	40 Gig hard drive	0	0	0
BERGERON...	Bergeron Com...	00105	40 Gig hard drive	0	0	0
CENTRALC...	Central Cellular...	00105	40 Gig hard drive	0	0	0

You can then choose Min Order Qty to set the multiple value for all rounding methods.

Usage

Select the Purchasing Advisor module in SalesPad (Modules>Purchasing Advisor). You can use this module to create purchase plans and generate purchase orders for selected vendors.

For more information on using this module, click [here](#).

☒ Close When PO is Created ☒ Use Drop Ship Line Cost Adjustment: Close

In the lower right corner of the screen (to the left of the **Close** button) is an **Adjustment** dropdown, which you can use to choose from three rounding options for the vendor minimum purchase quantity.

Clicking on the arrow on the **Adjustment** dropdown displays three options. Selecting **No Adjustment** will not affect the purchase quantity. If you choose **Round to Closest Multiple**, the purchase quantity will be set to the nearest minimum required quantity. If you choose **Increase to Next Multiple**, the purchase quantity will increase to the next minimum required quantity.

(The quantity adjustment is in addition to any other vendor minimum that might apply.)
