# Customer Type

Megan De Freitas - 2025-06-10 - [Settings](#)

## Overview

Customer Type is similar to Customer Class in that it is a means of categorizing customers. Use Customer Class and Customer Type together to manage your customers more effectively.

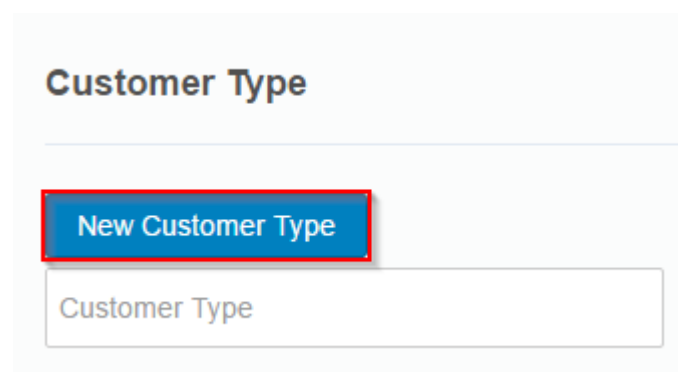

To get started, select **Customer Type** from the Settings menu.

## Customer Type

### Create a Customer Type

To create a Customer Type, click the **New Customer Type** button in the upper left-hand corner of the screen.

Give the Customer Type a name in the Customer Type drawer that appears, then click **Save**.

### Edit a Customer Type

To edit an existing Customer Type, first select the Customer Type from the list on the left-hand side of the Customer Type window.
