

Dangerous Goods Declaration

Megan De Freitas - 2024-11-22 - Reporting

Overview

The Dangerous Goods Declaration Security setting allows users to see the Dangerous Goods Declaration report in the report manager. This report can be copied and edited in report designer. See the [Reports](#) documentation for more information on this functionality and other default reports.

Dangerous Goods Declaration

Usage

Dangerous Goods Declarations must be used for a shipment of Dangerous Goods in order to be passed on to the consignor. This document certifies that the goods have been packaged, labeled, and declared in accordance with international shipping regulations. Once you enable the Dangerous Goods Declaration security, the report will be visible in Report Manager.

The screenshot shows the Reports Manager interface. On the left, a table lists various reports with columns for 'Report', 'ReportID', and 'IsC...'. The 'Dangerous Goods Declaration' report is highlighted with a red border. On the right, the 'Report Preview' window shows a sample document for the 'DANGEROUS GOODS DECLARATION' report. The document includes fields for 'Shipper', 'Consignee', 'Commodity', and 'Hazardous Material', along with checkboxes for 'Packaging' and 'Labeling'.
