# **Desktop System Log Search**

Megan De Freitas - 2025-06-11 - Utilities

### Overview

System Log Search allows users to look through the system log. A user can customize how results are drawn and what information is displayed. This document will teach you how to access System Log Search and use the search function.

## System Log Search

Accessing System Log Search

In SalesPad Desktop, go to the folder in the bar on the top left of the screen.

Click on this folder to access a drop-down menu, then go into Setup/Utilities, and from that menu select System Log Search.

	÷	· 🌡		_							
a		CRM	×.	Equipr	nent Management Inventory I						
1		Distribution BOM	×.		🔊 Counter Sales						
		Equipment Management	F	t Search 🛛 🖄 Sales Document Mass Up							
nc rc		Inventory	×.	ch	🗅 Sales Line Mass Update						
		Purchasing	×	es							
		Sales	×								
		Setup / Utilities	×.		Resource Search						
		Reporting	F	ð	System Log Search						
		System	×	1	Email Template Editor						
	_			÷	Equipment Migration Tool						
					Import Manager						
				<b>Ģ</b>	Layout Maintenance						
				3	Registry Maintenance						
				2	Resource Migrator						
				0	Sales Document Setup						
				5	Smart Printing Maintenance						
					SMTP Setup						
				5	Store Setup						
				-8	Workflow Setup						

This will open the System Log Search module.

### Using the Search Bar

The search bar for System Log Search uses text input to look through system log entries for matching text. SalesPad Desktop allows users to search by Username and Log Text. To use the search bar, click in the white space and type your search terms.

- Search By			
Username:	joseph.mckright	Log Text:	error

To limit your search results to a certain timeframe, use the Prior Months filter in the Search Options field on the right-hand side of the screen.

Search Options —											
Match Beginnir	ng
