

Documentation Hyperlinks

Megan De Freitas - 2024-11-22 - Sales

Overview

In an effort to make help functions and documentation more readily available in Sales Pad, documentation hyperlinks have been added to the right-click menu for the main forms that launch the user documentation portal on the Sales Pad website (www.cavallo.com). Using this functionality, you can easily be linked to documentation from within any Sales Pad module.

Example: Sales Monitor

To see an example of how documentation hyperlinks work in SalesPad, open the Sales Monitor module in Sales Pad. Click on Sales Monitor, then right-click to display the dropdown menu. In this menu, hovering over the Links item displays the Sales Documentation hyperlink.

The screenshot shows the Sales Monitor application window. A right-click context menu is open over the 'ENDING' section of the left-hand navigation tree. The menu items include: Close, Un-Tab Window, Favorite, Close, Close Other Tabs, Close All Tabs, Links (highlighted), and Security. The 'Links' item has a sub-menu arrow pointing to the right, which is visible as 'SalesPad Desktop Documentation'. The main data table shows a list of orders with columns for Doc #, Doc Date, Customer, Req Ship Date, Total, Rep, and Status. The status column contains hyperlinks like 'PAUL W.'.

Doc #	Doc Date	Customer	Req Ship Date	Total	Rep	Status
ORDST2265	08/03/2018	Aaron Fitz Electrical	08/03/2018	0.00	PAUL W.	ZL FPD

Clicking on this hyperlink takes you directly to the main documentation page on [cavallo.com](http://www.cavallo.com). You can use the search field at the upper right of this page to find the documentation you're looking for.

SalesPad Support

SalesPad Desktop

A full front-end order entry, purchasing, sales, and inventory management solution that fully integrates with Microsoft Dynamics GP, SalesPad Desktop is the complete package for distribution and manufacturing companies. Process orders more accurately and efficiently, while having full visibility into each step of your fulfillment. Simplify the lives of your customer service and sales reps by putting information at their fingertips with powerful Excel-style searching. Operating outside of Dynamics GP cuts down on your costs per seat and adds additional levels of security by removing warehouse employees from your accounting environment, and vice versa.
