FedEx Freight Quote

Megan De Freitas - 2024-11-22 - Sales

Overview

By default, the freight that populates the Freight field on a sales document is the Standard Freight rate. The FedEx Freight Quote feature adds the ability to quote International Freight rates from a sales order and to select the account at the time of processing. Using a FedEx account, SalesPad can connect to the FedEx system and calculate the freight on demand.
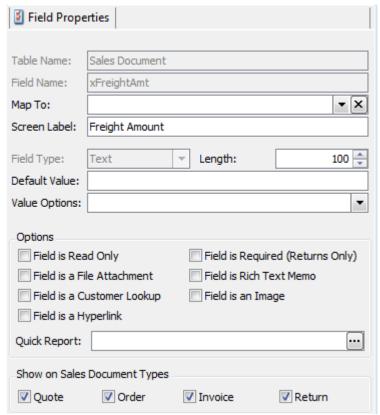

Note: FedEx Rate Service: FedEx is no longer giving out meter numbers. You must have an existing meter number with FedEx to use this function.

User Defined Fields (Optional)

Follow the steps below in the User Field Editor to create FedEx user defined fields
Note: Refer to the SalesPad User Defined Fields document for more specific information on creating user defined fields.

1. Under the Sales Document Bus. Object, create the fields pictured below (**Service Type** and **Freight Amount**):

2. When finished, click **Update Database**
3. Click **Design Layout**, then select the layout type from the dropdown
4. Add your fields or click **Reset** to have SalesPad automatically add them for you.
5. When complete, close the Layout Editor window.
6. When asked to save, click **Yes**. You will return to the User Field Editor
7. Click **Save** and then close the User Field Editor. You will be logged out of SalesPad and will need to log back in

Usage

1. On a sales document, click the FedEx Quote tab

2. Select the shipping method from the Service Type dropdown.
3. Enter the length, width, height, dimension units, weight, and weight units of the package. If you have multiple packages, you can identify the packages in the ID column.
4. Once all information is entered for the package(s), click the **Calculate** button. This will connect to FedEx to calculate the shipping cost, and add it to the freight field on the sales document.

A text response of the cost breakdown from FedEx will display on the lower portion of the screen:

If you are using the user defined fields, you will see the service type and cost of the service copied to the User Field tab:

Note: If you are calculating freight to another country, the address country code must be entered as specified by FedEx. Below is a list of country codes.
