FedEx Ship Manager Setup

Megan De Freitas - 2024-11-22 - Miscellaneous

Follow the steps below to set up FedEx Ship Manager with ShipTo. Also take these steps if you receive an error message that the FedEx Ship Manager Keyed Import Map is missing:

- 1. Close FedEx Ship Manager and Open ShipTo.
- Scan a document in the ShipTo window and click **Process**. This will create the map between FedEx and ShipTo. (It may show a notification if UPS or FedEx is not open; just ignore this).
- 3. Open FedEx Ship Manager
- 4. Click on **Integration** and you will see a ShipTo as a new option. If there is no check mark next to ShipTo, click on it to mark it

Ship Track Shipping list - Addr	ntegration Assistant com FedEx
Shipment details Options ShipAlert Return	
Recipient information ShipTo	nd shipment details
Ship to group	E Hold
Recipient ID:	Number of packages:
Country: US - United States	Weight:
Contact name:	Convince turne: Callest any instance
Company name:	Select service type
Address 1:	V Select package type
Address 2:	Package dimensions: Select an item

- If changes are needed to the mapping (in most cases, it is not), make the changes in Integration > FedEx Integration Assistant
- 6. When the Integration Assistant window appears, click **Continue** at the bottom
