## FedEx Ship Manager Setup

Megan De Freitas - 2024-11-22 - Miscellaneous

Follow the steps below to set up FedEx Ship Manager with ShipTo. Also take these steps if you receive an error message that the FedEx Ship Manager Keyed Import Map is missing:

- 1. Close FedEx Ship Manager and Open ShipTo.
- Scan a document in the ShipTo window and click **Process**. This will create the map between FedEx and ShipTo. (It may show a notification if UPS or FedEx is not open; just ignore this).
- 3. Open FedEx Ship Manager
- 4. Click on **Integration** and you will see a ShipTo as a new option. If there is no check mark next to ShipTo, click on it to mark it

| 🚯 FedEx Ship Manager   v. 2453-a   694146             | ShipTo                                 |

| Recipient information Ship                            | pTond shipment details                 |
| Ship to group   | E Hold                                 |
| Recipient ID:   | Number of packages: Identical packages |
| Country: US - United States                           | Weight:                                |
| Contact name:   |  |
| Company name:   |  |
| Address 1:  | ✓                                      |
| Address 2:  | Package dimensions: Select an item     |

- If changes are needed to the mapping (in most cases, it is not), make the changes in Integration > FedEx Integration Assistant
- 6. When the Integration Assistant window appears, click **Continue** at the bottom
