File Import History

Megan De Freitas - 2024-12-02 - Settings

Overview

SalesPad Cloud's File Import History default report displays a history of data imports from QuickBooks Online.

To get started, select **File Import History** from the Reports section of the Settings menu.

The File Import History grid will display. Click on an Import Num link for details on that data import.

Remember, any grid found in SalesPad Cloud can be customized by clicking the **Columns** button on the right-hand side of the grid and selecting which columns you want visible in your grid.
