

Interaction Type

Megan De Freitas - 2024-12-02 - Settings

Overview

Interaction Types allow you to define styles of communication between your company and customers, vendors, etc., and to easily reference any communications that occur.

To get started, select **Interaction Type** from the Settings menu.

Navigation Menu

- [Interaction Type](#)
 - [Create an Interaction Type](#)
 - [Edit an Interaction Type](#)
- [See it in Action](#)

Interaction Type

Create an Interaction Type

To create an Interaction Type, click the **New Interaction Type** button in the upper left-hand corner of the screen.

The Interaction Type drawer will appear.

Give your Interaction Type a name and description, and click **Save** when you've finished.

Edit an Interaction Type

To edit an existing Interaction Type, first select the Interaction Type from the list on the left-hand side of the Interaction Type window.

Once you've selected the Interaction Type you want to edit, make your changes in the information fields on the right-hand side of the screen.

When you've finished making your changes, click **Save**.
