## Inventory Adjustment Report

Megan De Freitas - 2025-06-11 - Reporting

## Overview

The *Inventory Adjustment Report* security setting allows users to see and use the Inventory Adjustment Report default report. This report can be copied and edited in Report Designer. See the <u>Reports</u> documentation for more information on this functionality and other default reports.

## **Inventory Adjustment Report**

The Inventory Adjustment Report is used in the Inventory Adjustment module in SalesPad Desktop. When you want to print a report for the adjustment, you can press the **Print** button at the top of the screen. For more information, refer to our <u>Inventory Adjustment</u> documentation.
