

Inventory Lookup Search Short Description

Megan De Freitas - 2024-11-22 - Inventory

Overview

A new setting in Sales Pad allows you to search for an inventory item without having to type in the full item name using the Dynamics GP Short Description field.

Settings

In the Sales Pad Settings module under Inventory Search Settings, set the item *Search Short Description* to True. This will enable the feature.

Usage

Click on Inventory Lookup. Enter fhd in the Item # field and click **Search**. The two items displayed are retrieved based on the search for fhd (Football Helmet Decal) in the short description field in Dynamics GP.

The same fields are also shown in the Dynamics GP Item Maintenance window.
