# Mission Control: How To Capture a HAR File

Megan De Freitas - 2024-12-03 - [Mission Control Documentation](#)

When working with the Cavallo team to resolve ongoing issues, there will be times where the team may request a HAR file to help our development team diagnose the issue. Below is a quick video and step by step guide on how to capture a HAR file.

Step by Step:

1. Right-click in the browser window or tab and select Inspect.

The screenshot displays the Mission Control application interface. On the left, there are panels for 'Approvals (1)' and 'Workflows (13)'. The main area shows a table of documents with columns: DOC NUMBER, PO NUMBER, CUSTOMER, DOC DATE, STATUS, RELATED DOCS, PRODUCTS, MARGIN, MARGIN AMOUNT, and COST. A right-click context menu is open over the table, showing options like 'Back', 'Forward', 'Reload', 'Save as...', 'Print...', 'Cast...', 'Search images with Google', 'Send to your devices', 'Create QR Code for this page', 'Translate to English', 'View page source', and 'Inspect'. The 'Inspect' option is highlighted.

2. Click the Network tab in the panel that appears.

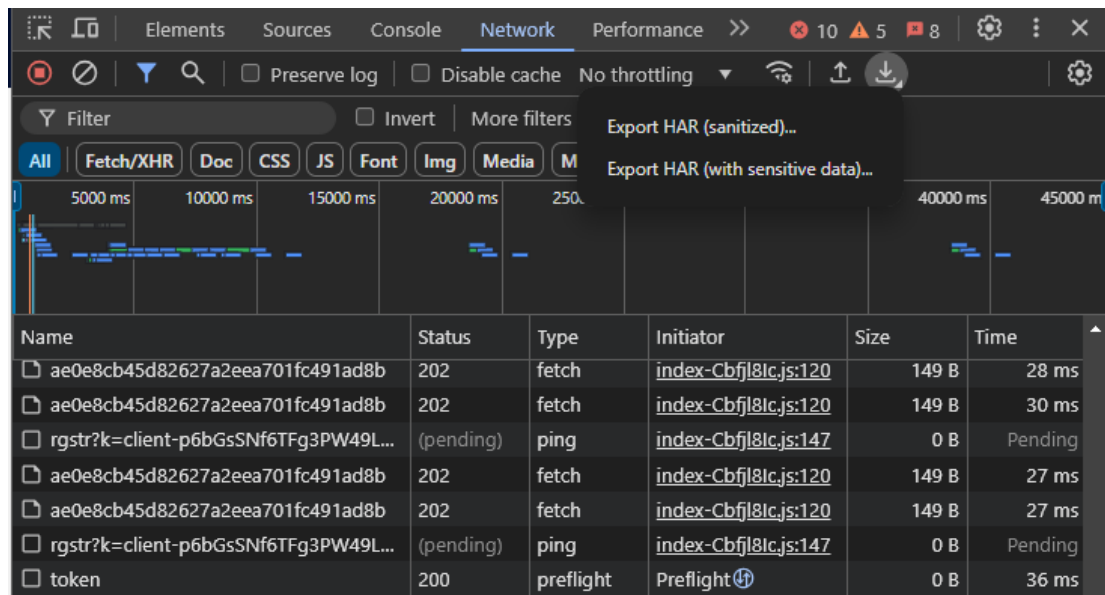

The screenshot shows the 'Documents' page in a web application. The page has a table with columns: DOC NUMBER, PO NUMBER, CUSTOMER, DOC DATE, QUEUE, STATUS, RELATED DOCS, and PRODUCTS. The table lists 12 documents, each with a 'New Quote' status. The right side of the image shows the Chrome DevTools Network tab, which is currently empty, displaying 'Recording network activity...' and a 'Learn more' link.

3. Refresh your page and reproduce the error with the Network tab open

The screenshot shows the 'Documents' page after a refresh. The page now displays 'No Documents' with a stack of papers icon. The right side of the image shows the Chrome DevTools Network tab, which is now populated with network requests. The 'Name' column lists various resources, including images and scripts. The 'Status' column shows '200' for all requests. The 'Time' column shows the duration of each request. The 'Waterfall' column shows a timeline of the requests.

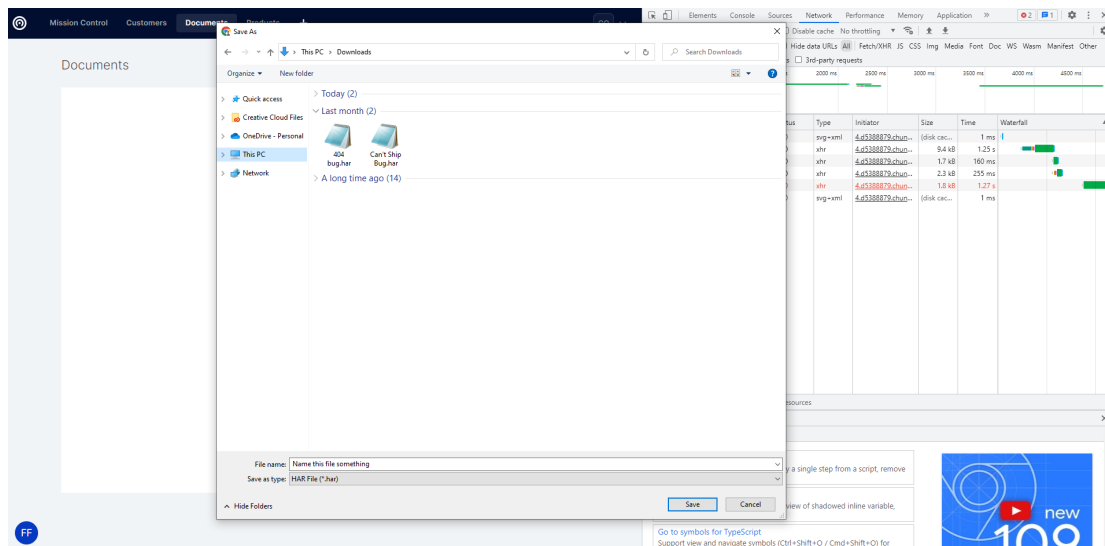

4. Once the error has been reproduced, click the download icon in the upper right and select one of the options.

*Note: With Google Chromes latest update, saving a HAR file has moved locations. In addition, exporting with sensitive data has to be enabled in settings. See the above video recording for assistance.*
