

Order Confirmation

Megan De Freitas - 2024-11-22 - Reporting

Overview

The *Order Confirmation* security setting allows users to see the Order Confirmation report in the report manager. This report can be copied and edited in report designer. See the Reports documentation for more information on this functionality and other default reports.

Usage

Order Confirmation reports can be used to provide customers with a complete record of their order, including shipping addresses and methods, payment information and billing address, and item details. You can use this order confirmation by pressing the print button on any Sales Document. Once you enable the *Order Confirmation* security, the report will be visible in report manager.
