PayLink Integration

Megan De Freitas - 2024-11-27 - Integrations

[PayLink](#) is a great way to safely accept electronic payments from your customers. Connecting your PayLink account to SalesPad Cloud is a simple process.

To get started, select PayLink from the Integrations dropdown in the upper right-hand corner of the screen.

Click the **Connect To PayLink** button in the upper right hand corner of the screen.

Enter your PayLink credentials in the screen that appears to connect your PayLink account to SalesPad Cloud.

Once you're connected to PayLink, you can send PayLinks to your customers by selecting **Create PayLink** from the Actions dropdown on the [Payments tab](#) of a sales document.
