

PreSave Script for Sales Document Entry

Megan De Freitas - 2024-11-22 - Setup

To stop a user from processing an order with discontinued items, enter the following script in Security Editor > Sales Document Entry > Pre Save Script field:

```
// =====  
// begin DISCONTINUED items check  
// =====  
string discontinuedMessage = "";  
  
foreach(SalesPad.Bus.SalesLineItem sl in sd.LineItems)  
{  
if((sl.ItemMaster.val_Item_Type == "Discontinued" || sl.ItemMaster.val_USCATVLS_3 ==  
"D") && !sl.IsMarkedToDelete)  
{  
e.Cancel = true;  
if(discontinuedMessage == "")  
{  
discontinuedMessage = string.Format("The document contains the following discontinued  
items:{0}", sl.val_Item_Number);  
}  
else  
{  
discontinuedMessage += string.Format(", {0}",sl.val_Item_Number);  
}  
}  
}  
{ return discontinuedMessage; }  
  
// =====  
// end DISCONTINUED items check  
// =====  
return "";
```
