

Print Bulk Pick Ticket

Megan De Freitas - 2024-11-22 - Miscellaneous

Overview

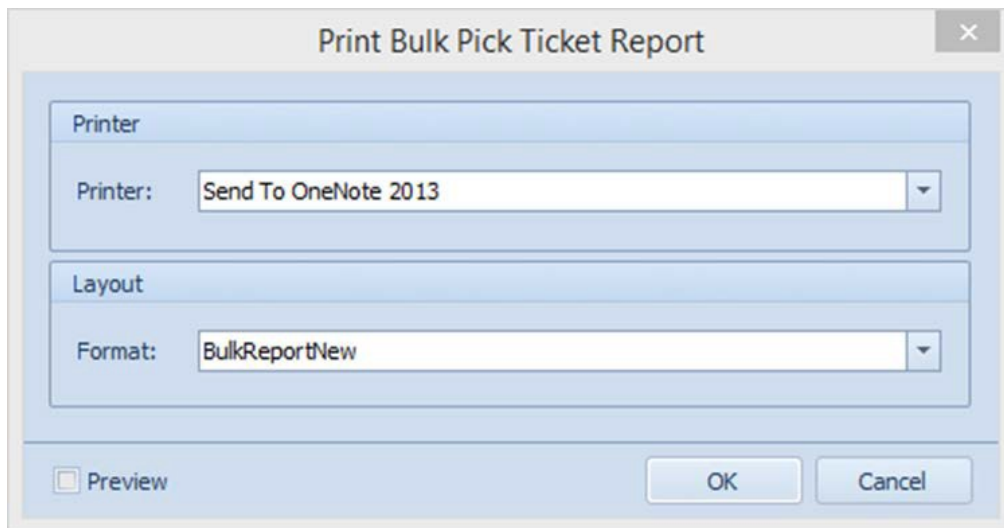

Print Bulk Pick Ticket is a module which allows users to print multiple sales documents using reports created in the Report Manager.

The screenshot shows the 'Print Bulk Pick Ticket' window. At the top, there are buttons for 'Close', 'Search', 'Print', 'Select All', and 'Select None'. Below these are filter fields for 'Quantity' and 'Warehouse', and a 'Quantity Limits' section with 'Sales Documents' and 'Line Items' dropdowns. The main area is a table titled 'Pick Ticket Information' with the following columns: Selected, Hubbin, Sales Doc Num, Sales Batch, Customer, Warehouse Code, Item Number, Item Description, Shipping Method, Requested Ship Date, and Quantity. The table contains multiple rows of data, including sales documents for 'Aaron Fitz Electrical' and 'Green Phone'.

Selected	Hubbin	Sales Doc Num	Sales Batch	Customer	Warehouse Code	Item Number	Item Description	Shipping Method	Requested Ship Date	Quantity
<input checked="" type="checkbox"/>	AUTOCREATE	ORD 1011	ORDER	Aaron Fitz Electrical	WAREHOUSE	2.538.118	Keyboard	LOCAL DELIVERY	1/21/2015	3

Usage

1. Enter any search terms (workflow/queue, warehouse) and quantity limits, then click the **Search** button. If the filters are left blank, DataCollection will attempt to return all sales documents.
2. Select any sales documents you wish to print by clicking on the boxes to the left of the document. You can select all or none of them by clicking on the **Select All** or **Select None** boxes. (Note that all documents are selected by default upon searching.) After selecting the desired documents, click the **Print** button. This will open the print dialog window.

The image shows a Windows-style dialog box titled "Print Bulk Pick Ticket Report". It has a close button (X) in the top right corner. The dialog is divided into two main sections: "Printer" and "Layout". In the "Printer" section, there is a label "Printer:" followed by a dropdown menu showing "Send To OneNote 2013". In the "Layout" section, there is a label "Format:" followed by a dropdown menu showing "BulkReportNew". At the bottom left, there is a checkbox labeled "Preview" which is currently unchecked. At the bottom right, there are two buttons: "OK" and "Cancel".

3. Select a printer and a layout (which must be created in the Report Manager prior to using this feature) and click **OK** to print your document.

Security

Print Bulk Pick Ticket - Grants access to the Print Bulk Pick Ticket module.
