

Print Bulk Pick Ticket

Megan De Freitas - 2024-11-22 - Miscellaneous

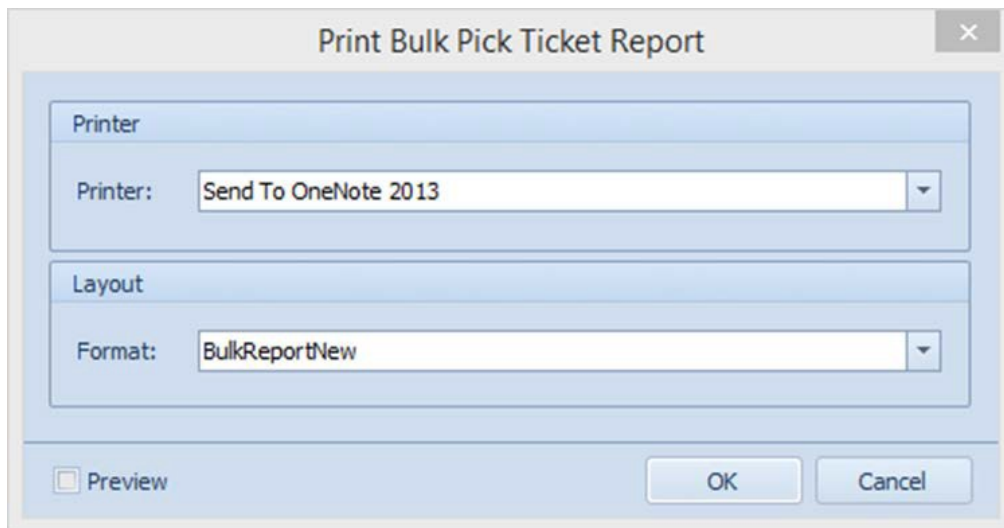

Overview

Print Bulk Pick Ticket is a module which allows users to print multiple sales documents using reports created in the Report Manager.

Selected	N/Item	Sales Doc Num	Sales Batch	Customer	Warehouse Code	Item Number	Item Description	Shipping Method	Requested Ship Date	Quantity
<input checked="" type="checkbox"/>	AUTOCREATE	ORD 1011	ORDER	Aaron Fitz Electrical	WAREHOUSE	2.838.118	Keyboard	LOCAL DELIVERY	12/21/2015	3

Usage

1. Enter any search terms (workflow/queue, warehouse) and quantity limits, then click the **Search** button. If the filters are left blank, DataCollection will attempt to return all sales documents.
2. Select any sales documents you wish to print by clicking on the boxes to the left of the document. You can select all or none of them by clicking on the **Select All** or **Select None** boxes. (Note that all documents are selected by default upon searching.) After selecting the desired documents, click the **Print** button. This will open the print dialog window.

The image shows a dialog box titled "Print Bulk Pick Ticket Report" with a close button (X) in the top right corner. The dialog is divided into three sections. The first section, labeled "Printer", contains a dropdown menu with the text "Send To OneNote 2013". The second section, labeled "Layout", contains a dropdown menu with the text "BulkReportNew". At the bottom left, there is a checkbox labeled "Preview" which is currently unchecked. At the bottom right, there are two buttons: "OK" and "Cancel".

3. Select a printer and a layout (which must be created in the Report Manager prior to using this feature) and click **OK** to print your document.

Security

Print Bulk Pick Ticket - Grants access to the Print Bulk Pick Ticket module.
