

## Receiving Window Right Click Functions

Megan De Freitas - 2024-11-22 - Purchasing

### Overview

The Receiving window in Sales Pad has been enhanced in version 4.2 to add right-click functionality to make more information available to the user. With the Receiving Window Right-Click feature, you can add, update, or clear various items including Bin, Receipt Batch, Quantity to Receive, Vendor Document Number, Lot Number, and Warehouse.

### Security

Make sure the Receiving module is enabled in SalesPad, and set sub-settings to best match your desired business practices.

### Usage

Click on **Receiving** and find the receipt item you want to get more information on.

Received	Req. Date	PO#	Ordered	Vendor ID	NI	Item Number	Item Description	To Recv.	Bin	Rcpt. ...	Vendo...	Serial/...	Receipt...

0	10/22/2010	PO2300	100	ADVANCED0001		HD-180	180 Gig hard dr...			WARE...		(Serial ...	
0	9/27/2010	PO2301	2,400	ADVANCED0001		11820001	Fuel Gel-US			WARE...			

Right-click on the item you want more information about ( i.e. Received, Req. Date, PO#, Vendor ID, etc.). This brings up a new window, where you can enter or clear Receipt Batches, Selected Bins, Quantity to Receive, Vendor Doc Number, Lot Numbers, or Warehouse. You also have the option to Clear All.
