Registry Maintenance

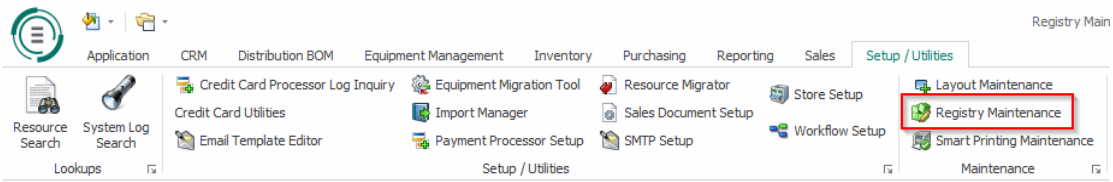

Cavallo Support - 2026-02-19 - Setup

Overview

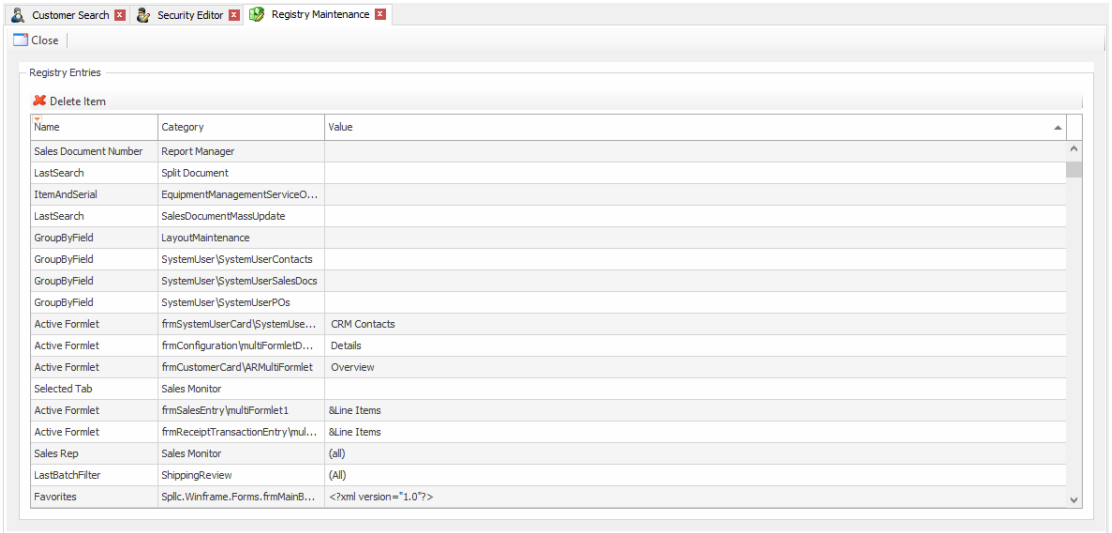

Registry Maintenance is a module within SalesPad Desktop that allows users to view and delete specific registry entries for SalesPad. This module can also be used to easily edit connections from within SalesPad while logged in. This document will teach you how to read and delete items in Registry Maintenance, as well as how to edit connections from within. Any relevant securities will be listed at the end of the document.

Usage

To find Registry Maintenance, select the Setup / Utilities tab in SalesPad, then select the Registry Maintenance module.

The module will open, allowing users to see all of the registry entries for SalesPad. Each entry can have a category, a name, and a value. None of these fields are available to edit from within the registry maintenance field

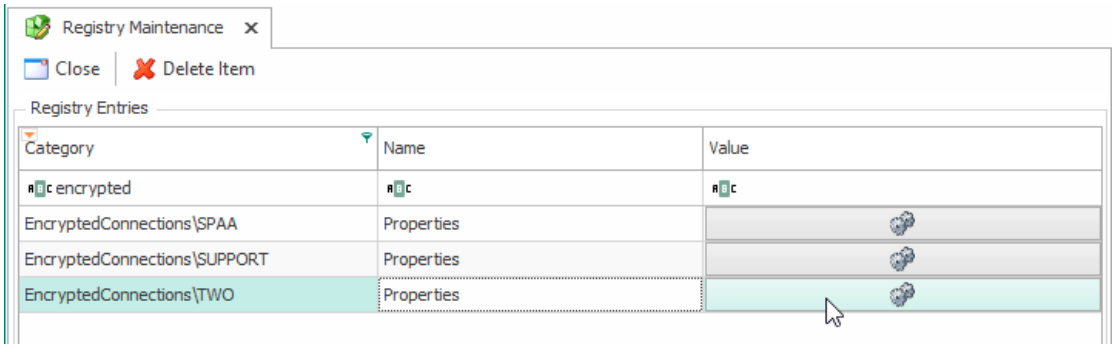

Deleting Registry Entries

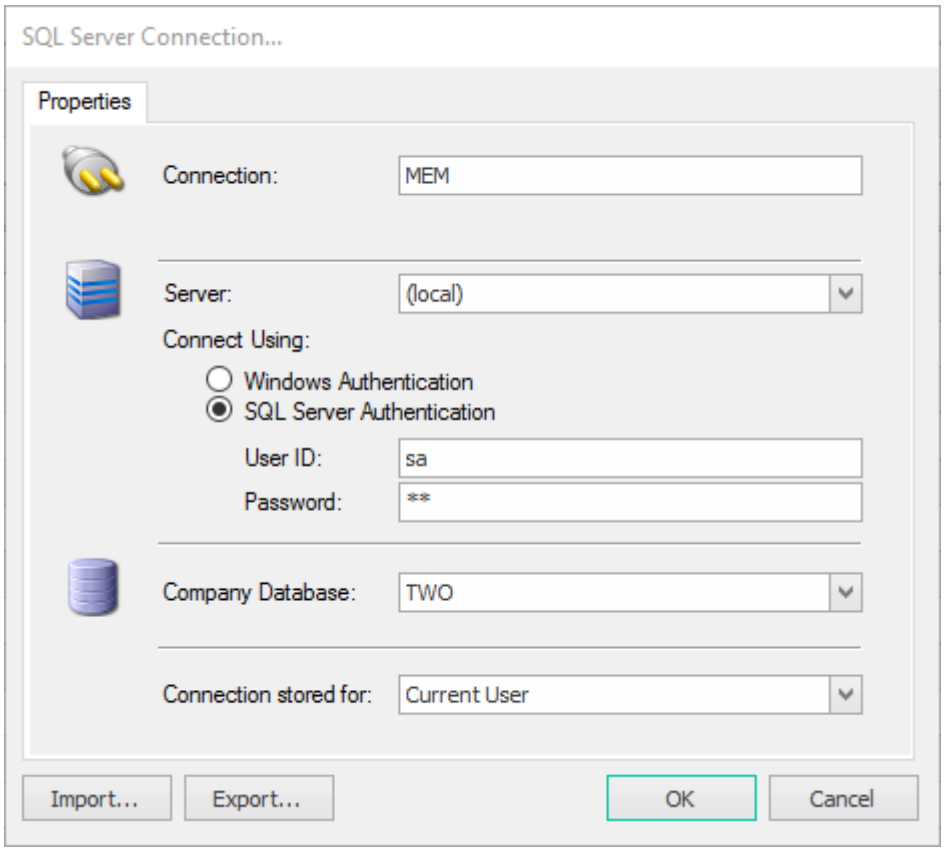

To delete a registry entry, select it within the grid, and then click the **Delete Item** button. You will need to have the *Can Delete Entries* sub-security for the *Registry Maintenance* security set to True. The deletion of only specific registry entries are supported within SalesPad Desktop.

Editing Connections

To edit a connection within Registry Maintenance, you will need to have the *Can Edit Connections* sub-security for the *Registry Maintenance* security set to True. After this is completed, search for an entry with the Category

EncryptedConnections\[your connection name]. This connection will have a settings button in the Value field. Click this button to open up the connection screen. From here, you can set the name, server, credentials, and database for your SQL connection.

Security and Application Settings

*Registry Maintenance** – Allows users to see and open the Registry Maintenance module

Note: Securities with an asterisk (such as *Registry Maintenance*) have sub-securities that are listed in the middle section of the Security field. Sub-security descriptions appear in the bottom section of the field. Review and customize these as desired.
