# **Sales Line Components Show Extended Cost**

Megan De Freitas - 2024-11-22 - Sales

## Overview

The Show Extended Cost setting in Sales Pad displays an extended cost column to the Kit Component popup window. In addition, there is a summary bar on the bottom of the popup window grid that shows the total extended cost.

#### Setup

### Security

In the Security Editor (Modules > Security Editor), search for *Sales Line Components*. Under this setting, set *Show Extended Cost* to True. When enabled, this setting shows the extended cost in the Kit Component plugin. It defaults to False.

# Usage

In the Customer Card, create a new document or open an existing document that contains a package or kit.

In the document header, open the Actions dropdown menu.
