Install and Connection Setup | SalesPad Desktop

Cavallo Support - 2025-06-05 - Video

This video is a tutorial on how to install SalesPad GP to your computer. Please note this is also the installer for client and server. When the installer is finished, you will have the option of being taken to the release notes of our website, where you will find in-depth information about the version of SalesPad you installed.

Do not install over the old version of SalesPad, as this will cause errors when launching the application. Instead, please rename the file with the version number so as to prevent this problem.
