Navigation | SalesPad Desktop

Cavallo Support - 2025-06-05 - Video

This video discusses how to navigate through SalesPad GP for Microsoft Dynamics GP. Most of the navigation through the software will occur through two drop downs or the ribbon at the top. Through the modules tab, the user can view all the modules available to them within their security setting. Users can choose which modules they would like to view or hide based on what is most useful to them.
