Sales Monitor | SalesPad Desktop

Cavallo Support - 2025-06-05 - Video

This video is a tutorial on how to use the sales monitor feature in SalesPad GP for Microsoft Dynamics GP. Sales monitor provides an easy way for the user to view all the open documents in the system by document ID and by batch, as well as all their details. To view more information about a document or group of documents, more columns can be added by right-clicking on a column header. Sales documents can even be organized and viewed by sales representative.
