Sales Transfers | SalesPad Desktop

Megan De Freitas - 2025-06-05 - Video

Overview of SalesPad's [Sales Transfers function](#), which allows users to create a transfer order to easily create and inventory transaction from your inventory location to a customer consignment location, while leaving an audit trail for tracking the status of a transfer order.

SalesPad fully integrates with Microsoft Dynamics GP to deliver a superior all-in-one order entry, inventory, and sales management solution.
