Shipping Review

Megan De Freitas - 2024-11-22 - [Sales](#)

Overview

The Shipping Review module provides a convenient place for users to view and modify sales document lines and forward documents to the next workflow queue for shipping. This is the only place in SalesPad that you can set a document's actual ship date, after processing the document.

Usage

1. To open Shipping Review, go to Modules > Sales > Shipping Review

- The "Process Shipment" pop-up will appear, where you can change the actual Ship Date. Make a change if needed, and click **OK**

Process Shipment

Accept or Change Ship Date:

3/13/2012

OK Cancel

This will move the document through workflow based on the Doc Type and Doc ID.

Note: You can undo changes or simply exit Edit Mode by clicking **Cancel Edit**.

Note: You can also open the sales document on the Sales Document Entry screen by clicking the Doc # hyperlink

Note: Aside from the Cancel Edit button being greyed out, there will be no indication on the Shipping Review screen that the document has been successfully forwarded; however, if the process is unsuccessful, you will see an Active Support error message.
