ShipTo FedEx Country Code Matching

Cavallo Support - 2024-11-22 - Miscellaneous

FedEx has an option to match country codes if your GP/SalesPad country codes do not match FedEx requirements.

To set this option in FedEx Ship Manager:

1. Click on **Integration**
2. Click **FedEx Integration Assistant**
3. Click **Continue** and click **Continue** again
4. Make sure you are on Edit Existing Profile and that ShipTo is selected, and click **Continue**
5. Click on the Import tab
6. Click on the Conversion tab
7. In the left column, click on **Country**

From here, you can find a country and next to it type the way it is entered when imported to the document. To use multiple aliases for each country, select a country and click **Duplicate**.

If you don't ship to a certain country, leave the field set to . **Save** your changes.
