

System Information

Megan De Freitas - 2024-11-22 - System

Overview

The System Information module allows users to view current connection information, current software versions .dll's that are loaded, whether or not certain GP features are enabled, as well as assembly locations. There is currently no Security or Settings needed to enable the System Information module.

Main Screen

System Information Screen

To get started, click the blue question mark found in the top right corner and choose **System Information** from the dropdown.

This is the main System Information screen where users will see several grids and tabs.

Assembly Versions

This tab displays the different .dll's and their versions in SalesPad's install folder.

Name	Location	Version
Assembly	C:\Users\josh.dwyer\AppData\LocalTemp\Temp3\Temp3.dll	6.0.0.0
Accessibility	C:\Windows\Microsoft.NET\Framework64\Accessibility\4.0.0.0\Accessibility.dll	4.0.0.0
Apollo	C:\Program Files (x86)\SalesPad\Desktop\4.0.0.14\Apollo.dll	4.0.0.14
ApolloBeta	C:\Program Files (x86)\SalesPad\Desktop\4.0.0.14\ApolloBeta.dll	4.0.0.14
ArchMetrics_Analysis	C:\Program Files (x86)\SalesPad\Desktop\4.0.0.14\ArchMetrics_Analysis.dll	6.7.0.0

Language Choice and Send to SalesPad

This section, found at the very bottom of the screen, allows the user to choose the system language and send a company's System information to SalesPad Support. If you have a case that is currently open with SalesPad Support, enter the case number in the case number field to ensure that the information goes to the correct support technician.
