

Time in Queue

Robert Vander Ploeg - 2025-06-10 - Sales

Summary

The 'Time In Queue' tab is available on sales documents within SalesPad Desktop. From this tab, you can view an audit of the time a document spent in batches or queues, as well as other information, such as the time it entered and left a specific queue.

If processes outside of SalesPad move a document, the times reflected on this tab may not be accurate.
