

UPS Create Keyed Import Launch Button v2014 and Later

Megan De Freitas - 2024-11-22 - Miscellaneous

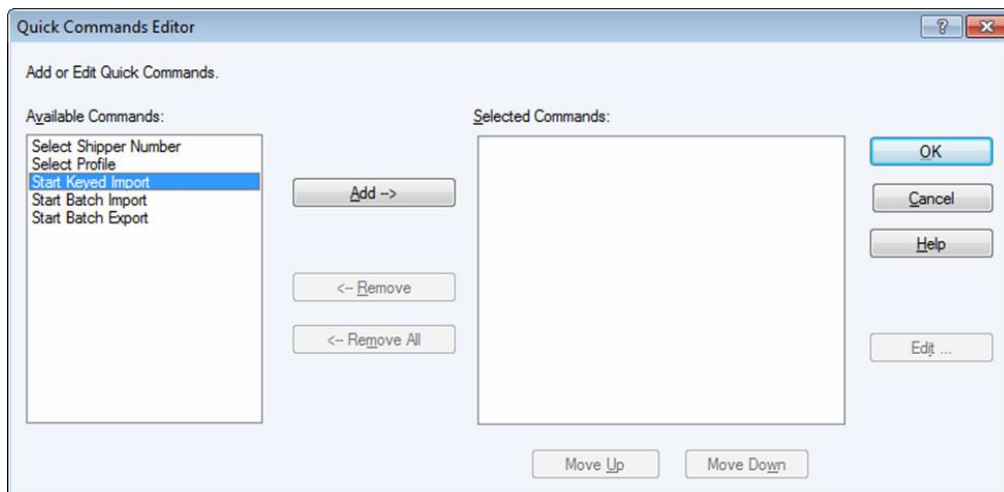

Overview

These instructions will allow you to set up a button to auto-start the ShipTo Keyed Import option in UPS WorldShip 2014 or later.

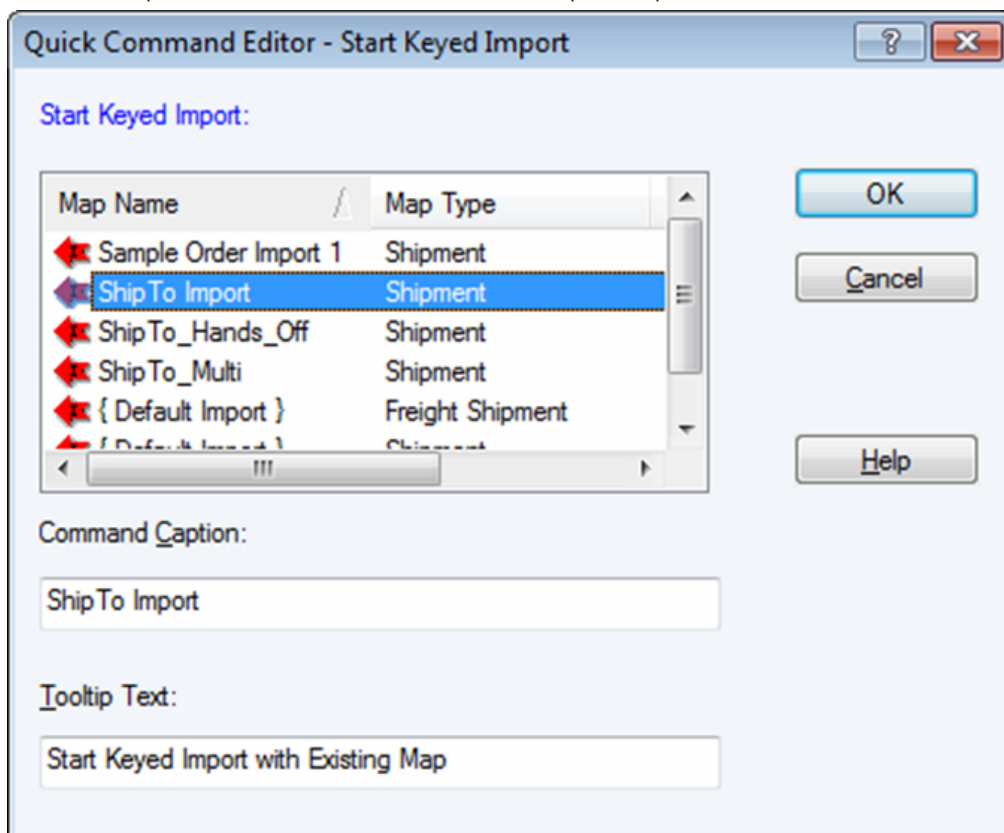

1. Open UPS WorldShip and go to the Import-Export tab.
2. Click the **Create New** button in the Quick Commands section.

The screenshot displays the UPS WorldShip software interface. The 'Import-Export' tab is active, showing various import and export options. In the 'Quick Commands' section, the 'Create New' button is highlighted with a red box. The main form area is divided into several sections: 'Ship To' (Customer ID, Company or Name, Attention, Address 1-3, Country/Territory, City or Town, Telephone, Email Address, UPS Account Number, Tax ID Number), 'Service' (Shipment, UPS Service, Next Day Air, Saturday Delivery, Bill Transportation To, With Return Services, Weight (lb), Package, Shipment, Electronic Scale Activated), 'Package' (Package Type, Length, Width, Height, Declared Value, Reference Number 1, Reference Number 2), and 'Shipper' (Shipper, Profile). The 'Shipper's Cost (USD)' is displayed as 0.00. The status bar at the bottom indicates 'Ver: 18.0.27 ASK Pending: 0 Shpmt(s), 0 Pkg(s)'.

3. In the Quick Commands Editor window, select Start Keyed Import from the list of available commands, and click **Add**.

4. Select ShipTo Import from the list of available maps and click **OK**. ShipTo Import will now show up under Quick Commands on the Import-Export tab.
