

Vendor Search and New Vendor Creation

Megan De Freitas - 2024-12-03 - Purchasing

Overview

SalesPad Vendor Search allows users to quickly find vendors and access detailed vendor information via individual Vendor Cards. New vendors can also be created from the Vendor Search Module

Usage

In the Vendor Search moduel, enter search criteria in the search fields. With proper settings (see settings, below), the Vendor ID field can be set to search multiple fields.

Once the search criteria is entered, click **Search** (or hit **Enter**). Ysearching with no criteria will display all vendors in the system.

The results are displayed in the Search Results grid.

The screenshot shows the Vendor Search interface. At the top, there are buttons for 'Close', 'Search', and 'New'. Below these is a 'Search By' section with input fields for Vendor ID, Contact, Phone, City, State, and Zip. To the right is a 'Search Options' section with a checkbox for 'Starts With'. Below the search fields is a 'Search Results' table with the following data:

Vendor ID	Vendor Name	Address Code	Contact Per...	Address	Phone 1	Phone 2	Fax	City	State	Zip	Country
