Why can't I see my posted documents in the grid?

Cavallo Support - 2024-12-02 - FAQ

If you're looking for a posted document in a grid and you can't find it, make sure that the Hide Posted Sales Documents (or Hide Posted Receipts, Hide Posted Transaction, etc.) box isn't checked above the grid. These boxes are also a good place to reference if you're trying unsucessfully to find a voided or historical document.
